SUMMARY

Motivated and enthusiastic software developer currently pursuing my studies, with strong foundational skills in HTML, CSS, JavaScript, Java, and Python. I have completed internships in both Artificial Intelligence & Machine Learning (AIML) using Python, as well as Web Development, gaining practical experience in model development, real-world problem-solving, and building responsive, real-time web applications.

I possess a solid understanding of Data Structures and Algorithms (DSA) and hold relevant certifications that reflect my commitment to continuous learning. In addition to my technical capabilities, I am proficient in Microsoft Office tools and possess strong communication skills, which enable effective teamwork and independent contributions. As a fresher, I am eager to apply my skills to challenging projects and grow in the fields of software development and AI.

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, React.js, Java, Python

Dev Tools: Visual Studio Code, PyCharm, Microsoft Office, Git, GitHub

EXPERIENCE

Web Development Internship
VaultofCodes

October 2025 – January 2026
Remote - Hyderabad, India

- Currently working as an Intern at a VaultofCodes, gaining hands-on experience in the Web Development domain.
- The skills and experience gained are laying a solid foundation for building larger and more complex web development projects in the future.

Web Development Internship
ApexPlanet

October 2025 – November 2025
Remote - Hyderabad, India

- I am currently working as an Intern and have gained hands-on experience in the Web Development domain.
- The skills and experience gained are laying a solid foundation for building larger and more complex Websites in the future.

EDUCATION

B V RAJU INSTITUTE OF TECHNOLOGY
Bachelor of Technology in Artificial Intelligence and Machine Learning

Narasapur, Medak, Telangana
Aug 2024 - July 2027

PROJECTS

SMART TASK MANAGER

HTML, CSS, JavaScript

[Source Code](#)

Developed a responsive task management web app using HTML, CSS, and JavaScript, featuring task creation, completion tracking, filtering, sorting, search, and CSV export with persistent local storage. Designed a modern glassmorphic UI with light/dark mode, animations, progress tracking, and motivational elements. Integrated user authentication with login/register pages and built a dynamic dashboard showcasing task insights to enhance productivity.

RESUME BUILDER

HTML, CSS, JavaScript

[Source Code](#)

Built a dynamic Resume/CV Builder featuring customizable templates, real-time live preview, autosave, JSON import/export, and print-to-PDF support. Implemented drag-and-drop section management for flexible structuring and added keyword analysis for job-match optimisation. The tool includes a responsive, accessible UI with light/dark themes and is developed using HTML, CSS, and modern JavaScript with a focus on clean, ATS-friendly layouts.
